

# DP ACCESS ASSET TRACKING

## MT-121 Hardwired

The MT-121 tracker is easily hidden within the asset. Simple 3 wire installation. Perfect for any asset or heavy machinery. Optional battery backup keeps tracking even if disconnected

## GL-300VC Portable

Small enough to fit in a pocket and rugged enough to be mounted under equipment. The portable devices and accessories allow for multiple configurations. Standard battery life is up to 8 days on a single charge and up to 60 days with the optional Hibernator Case

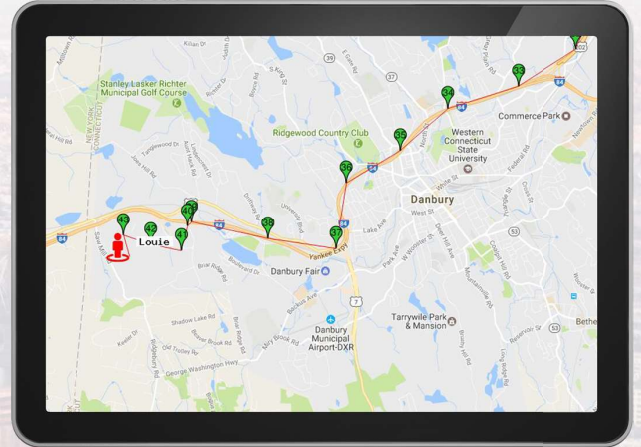

## Hibernator Case + 15,000 mAH Battery

Provides up to 60 days of use without recharging with the power saving motion sensor. The weatherproof case includes a high force magnet to assist in mounting under heavy equipment or other metallic surfaces

## Mini Magnetic Case

Weatherproof case includes two high force magnets to assist in mounting onto heavy equipment or other metallic surfaces

## Utilization:

- Theft Recovery
