

## Residual Rewards Program : Where Every Order Builds Your Future

If you're an IT Executive that is responsible for your company's network infrastructure, you're constantly juggling technology upgrades & cost management in addition to the critical IT operations. What if there was a way to focus on the urgent projects, streamline the telecom orders AND turn them into investments in your professional growth and financial future? Enter DP Access and our innovative "**Invest in Your Future**" residual rewards program.

Our telecom solution ordering wizard isn't just about efficiency—it's about empowering your career. With every completed order, you earn "Future Credits" that can be directed towards various aspects of your professional and personal development while maintaining ethical standards.

We understand that every IT professional's needs are unique. That's why we've created a diverse range of redemption options:

1. **Boost Your Expertise:** Use credits for certifications, training courses, or conference attendance. Stay ahead of the curve in our rapidly evolving field.
2. **Secure Your Retirement:** Contribute directly to your 401(k) or IRA. Your everyday work decisions can now bolster your long-term financial health.
3. **Prioritize Your Health:** Boost your HSA and prepare for future medical expenses in a tax-advantaged way.
4. **Tackle Student Debt:** Direct contributions to outstanding student loans can help you achieve financial stability faster.
5. **Expand Your Network:** Cover membership dues for IT industry associations, opening doors to valuable connections and resources.

We've designed this program with integrity at its core. All transactions are fully reported for tax purposes, and we provide clear disclosures. Our user-friendly dashboard and mobile app make it easy to track your credits and manage redemptions.

For those looking to make a broader impact, we offer the option to donate credits to STEM education initiatives. We'll even match these donations, amplifying your contribution to the next generation of IT professionals.

As you build and maintain your company's critical infrastructure, let DP Access build something for you too—a pathway to enhanced skills, financial security, and professional recognition. Ready to transform your telecom orders into career-boosting opportunities? Explore the DP Access ordering wizard today and start investing in your future with every click. With DP Access, every order is a step towards your next professional milestone. Join us in shaping the future of IT—one order at a time.
