

Improvements and New Features of Dashboard Management

Improved Graphic Accessibility

RECENT INVOICES

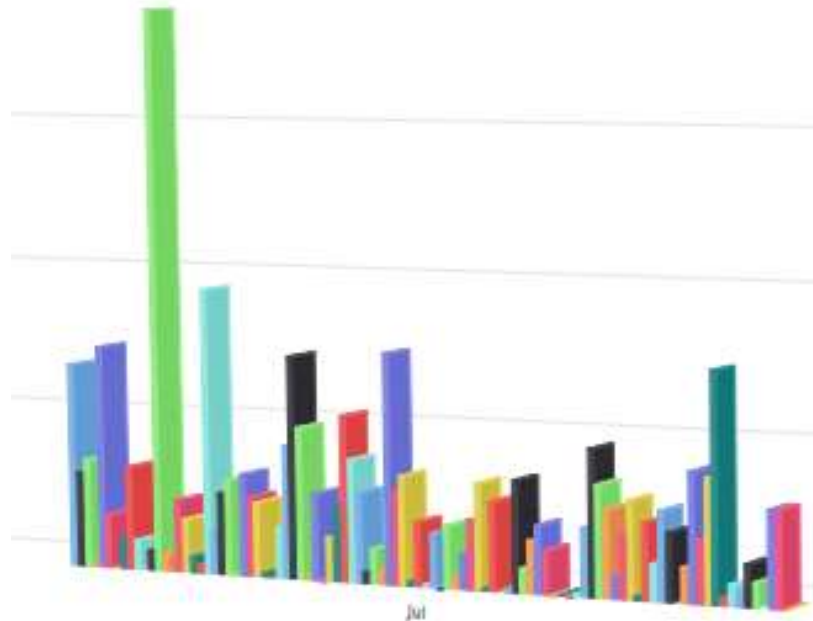

Enhanced Graphic Displays

Old

Customer accounts with large amounts of data and invoices were limited in the way the graphic charts would display.

New

Graphics now show in a format that is more useful for visually catching discrepancies between accounts and billing cycles.

New Zoom-In Feature for Charts that allows you to zoom in and view more precisely.

New Notification Triggers that can alert when an invoice increases or decreases by a set-amount.

Mobile & Tablet Responsive
